Summary

MCA graduate with hands-on experience in building Full-Stack and AI-powered applications using Next.js, React.js, TypeScript, Python, Node.js, PostgreSQL, and modern AI frameworks. Skilled in developing production-grade SaaS applications, REST APIs, multi-agent AI workflows, and scalable backend systems.

Skills

Languages: Python, TypeScript, JavaScript, Java, C

Frontend: Next.js, React.js, HTML5, CSS3, Tailwind CSS, ShadCN UI

Backend & APIs: Node.js, Express.js, FastAPI, Next.js Route Handlers, Prisma ORM

Databases: PostgreSQL, MySQL, SQLite

AI & ML: Google Gemini API, LangGraph, Prompt Engineering, Multi-Agent Systems, Pandas, NumPy

Tools & Infrastructure: BullMQ, Redis, NextAuth, JWT, Git, GitHub, VS Code, Vercel

Concepts: REST APIs, Auth, RBAC, SaaS, Event-Driven Architecture, Async Programming, Background Workers, OOP

Projects

AI Refund Agent SaaS

Technologies: Next.js • TypeScript • Prisma • PostgreSQL • Redis • BullMQ • LangGraph • Gemini AI

- Developed a production-grade AI refund platform to automate customer refund process using Next.js and Gemini AI.
- Designed a LangGraph workflow orchestrating four AI agents for accurate and policy-driven refund decisions.
- Implemented BullMQ and Redis to process refund requests asynchronously and improve system scalability.
- Built secure RBAC authentication and REST APIs for role-based access to customer and admin features.
- Developed a real-time dashboard for monitoring refund requests, AI decisions, analytics, and application activity.

CoinPulse – Cryptocurrency Portfolio Tracker

Technologies: React.js • JavaScript • CoinGecko API

- Developed a responsive cryptocurrency portfolio tracker using React.js and CoinGecko API to display real-time market data.
- Implemented portfolio management, dynamic profit/loss tracking, state management, and reusable UI components.
- Deployed the application on Vercel with a responsive interface optimised for desktop and mobile devices.

Bindu Agent Framework

Technologies: Python • FastAPI • Git • GitHub

- Contributed to backend API development for an AI-powered interview automation platform using FastAPI.
- Collaborated on debugging, testing, and GitHub workflows to improve backend reliability and maintainability.
- Enhanced modular backend components by implementing feature improvements and API optimisations.

Education

Anurag University, Hyderabad

Master of Computer Applications (MCA) CGPA: 7.83/10

2023 – 2025

Hyderabad, India

BBMKU, Dhanbad

Bachelor of Science 65.6%

2019 – 2022

Jharkhand, India

Certifications

- Java Full Stack Certification – Wipro
- Data Analytics Job Simulation – Deloitte
- Cloud Computing & Big Data Virtual Internship – YBI Foundation
- OpenCV Bootcamp Certification (89%)

Achievements

- Gold Medalist – International Mathematics Olympiad (IMO 2017)
- Open Source Contributor – Bindu Agent Framework
- Built production-grade AI SaaS applications using multi-agent AI workflows.
